

Vishwas Chourasiya

SKILLS

- **Programming Languages:** Python , JavaScript, C, PHP
- **Libraries/Frameworks:** React , Node , Express , Pandas, Open CV (python) , NumPy , Django , Tailwind, Vue,async python,Asterisk
- **Databases:** My SQL , SQL Lite, Mongo DB .Postgresql
- **Tools / Platforms:** Git, GitHub, Figma, Canva, Vs Code
- **Soft Skills:** Team Player, Analytical Skill, Problem Solving, Critical Thinking, Project Management

EXPERIENCE

Associate Software Developer

Reak Infotech LLP | Jabalpur

📍 Onsite | Aug 2025 – Present

- Worked on real-world projects using Python, Django, Vue.js, and TypeScript.
- Gained hands-on experience with Asterisk (IVR systems) for voice-based applications.
- Strengthened full-stack skills across backend APIs and frontend UI development.

AI & Cloud Integration Intern

Edunet Foundation | AICTE & IBM SkillsBuild

📍 Remote | June 5 – July 2, 2024

- Explored emerging technologies including AI, machine learning, and IBM Cloud services.
- Gained practical exposure to AI model development and cloud deployment.

MERN Stack Development Intern

EY Global Delivery Services | AICTE

📍 Remote | Dec 9, 2024 – Jan 20, 2025

- Learned full-stack development using MongoDB, Express, React, and Node.js.
- Strengthened skills in REST APIs, authentication, and real-time features.

PROJECTS

Online-test-webapp

JavaScript, React, Express, MongoDB

- Built a full-stack online test platform supporting user registration, timed quizzes, and automated scoring.
- Implemented question management, results reporting, and client-side validation to improve test reliability.

Real-Time Collaboration Platform

MERN Stack, Socket.io, MongoDB Change Streams

- Developed a collaborative editor with live sync using web sockets. Handled real-time updates and concurrency with MongoDB change streams.

Credit Card Default Prediction System

Python, IBM Cloud, Pandas

- Created a machine learning model to predict credit card defaults. Deployed the solution on IBM Cloud with full pipeline from preprocessing to evaluation.

Blog Application

Python, Django

- Built a full-featured blog platform supporting user auth, CRUD for posts, and rich-text editing; implemented using Django and Django ORM.

EDUCATION

2024-2026

Shri Ram Institute Of Technology

Master of Computer Application
CGPA: 7.50/10

2021-2024

Dr Hari Singh Gaur University

Bachelor Of Computer Application
CGPA: 7.59/10

2021

Jawahar Navodaya Vidyalaya Katni

Higher Secondary
Percentage: 84.4%

CERTIFICATIONS

Programming, Data

Structures And Algorithms

Using Python

NPTEL Online Certification

Postman API Fundamentals

Student Expert

Canvas Credentials (Badgr)

Hackathons & Competitions

Hackathon Participant

SRIT College Hackathon

Represented college team in a tech innovation event to build a prototype under time constraints.

HackerRank ASTRA –

JavaScript Coding Contest

Secured Rank 7 out of 12 in a competition focused on JavaScript problem solving.
